Dear friends and fellowlaborers,

October was a busy month full of all the normal church activity. We also thank the Lord for the blessings He gave that we were not expecting.

#### Medical Team

Early in October, I was contacted by the administrator of our local Christian school. He asked me if I would be interested in having a medical team come to the church. He stated that the team was already on their way and that they had a free day they were willing to give us. With Flu A, Dengue, and all the seasonal colds making their usual rounds through our community, I of course said yes, and we prepared for their arrival. On October 26<sup>th</sup>, the medical team treated 132 people from our Dominican and Haitian congregation as well as the surrounding community. One of our church members, Saoni, was greatly blessed as she is a severe asthmatic. The medical

team had come with several inhalers and gave them to her. She was so happy.

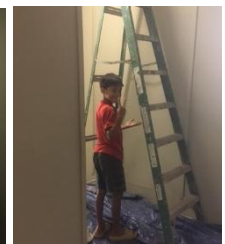

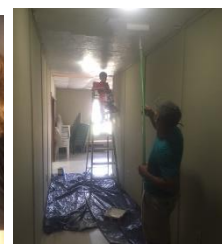

I shared the Gospel with the medical team and prayed for them. One NICU nurse named Lynn proudly

declared as she entered our church building that she was Jew. I had several opportunities throughout the day to explain to her how Yeshua is in fact the one who died for her sins and rose again. She got very angry with me and she did not accept Jesus as her Savior, but the seed has been planted. Please pray for Lynn as she wrestles with the truth.

#### Work Day!

Another great day this last month was our church wide work day. We were able to accomplish a lot around the building for the Lord, including painting, cleaning up the church yard, cleaning out gutters, fixing toilets, and the list goes on. We finished our work day with pizza. One of our teenagers named Joshua (no not me) told me, "Pastor, Im going to work just so you know, but Im also going to eat a whole pizza." I couldn't hardly believe it as he finished the 8<sup>th</sup> piece, but he earned it.

Thank you for reading, praying, and giving!
